

# Managed Deception Services

The Attivo Networks Decption solution stands guard inside your network, using high-interaction deception and decoy technology to lure attackers into engaging and revealing themselves. Through misdirection of the attack, organizations gain the advantage of time to detect, analyze, and stop an attacker.

We at Clyst, apprehend how revolutionary and future imperative this Technology is, and also understand the proficiency required for adoption and responsiveness for such a futuristic solution.

We are proud to present our Services bundled around this great Technology.

Technology Powered by

**Attivo**  
NETWORKS®

## Managed Deception Service : OPTION 1

- Level 1 support to be provided by Clyst Technologies LLP, by using the Dashboard provided by Attivo Networks, Threat Defend Platform.
- 24x7 Monitoring by Level 1 Resources using the Dashboards and Alerting Systems as provided by Attivo Networks
- Alerts will come in as E-Mail alerts and would be responded by Level 1 Engineers as per the set SLA
- The Level 1 Engineers will also act as "Eyes-on-Screen" and not miss out on any Alerts.
- Escalation to Attivo Networks Level 2 and Level 3 Engineers will be done following a set Escalation Matrix. This will be done via Phone and/or E-Mail depending on the Criticality of the Alerts

## Managed Deception Service : OPTION 2

- Level 1 support to be provided by Clyst Technologies LLP, but by using a SIEM.
- This SIEM will be installed at the client's premises and will be installed, configured and managed by Clyst Technologies LLP.
- Integration of Attivo Networks Central Manager with the SIEM will be done by Clyst Technologies LLP
- Clyst Technologies LLP will be fully responsible for managing the Alerts
- 24x7 Monitoring by Level 1 Resources using the Dashboards and Alerting Systems as configured on the SIEM
- Alerts will come in as E-Mail alerts and would be responded by Level 1 Engineers as per the set SLA
- The Level 1 Engineers will also act as "Eyes-on-Screen" and not miss out on any Alerts
- Escalation to Attivo Networks Level 2 and Level 3 Engineers will be done following a set Escalation Matrix. This will be done via Phone and/or E-Mail depending on the Criticality of the Alerts
- Expanding the SIEM Solution to integrate other network devices and servers can also be done, subject to commercial considerations.
